The day was perfect for the game.

NUMBERS NECESSARY ON PETITION-STEAD

ATTORNEY GENERAL IN OPINION
SAYS THAT IS VITAL FEAT-
URE IN THE LAW.

HARRIS CHARGED WITH ERROR

Objectors to the Progressive Petition
Allege He Had No Right
to Give Oath.

Further investigation of the nomi-
nating petition of the progressive
county candidates, which was filed
with County Clerk W. C. Thompson
Saturday afternoon, it is said by
those who have been looking into the
matter, shows that the petition is in-
valid, and that the county clerk will
not be allowed to print the names of
the three progressive county candi-
dates on the ballot to be used Nov.
5th.

After it was discovered Monday
that the pages of their petition had
not been consecutively numbered as
provided by the statutes of the state
of Illinois, the following telegram
was sent to the board of election com-
missioners of Cook county, men
who are versed in all the election
laws:

William H. Stewart,
Chief Clerk Election Commissioners
of Cook County, Chicago, Ill.

Nomination petitions filed in this
county do not have sheets number-
ed consecutively as required by sec-
tion 292a of Chapter 46, Revised
Statutes. What is the practice of
your board in cases of this kind?

Quotes Stead's Opinion.

The reply to this message was re-
ceived this morning, the answer be-
ing by Charles H. Mitchell, attorney
for the board of election commis-
sioners. His answer is:

The attorney general of Illinois in
an opinion July 26, 1910, held num-
bering essential to validity of a pri-
mary petition, but whether same
could hold as to the petition in ques-
tion we have no precedent.

Immediately on receipt of this mes-
sage the investigators of the progres-
sives' petition studied Attorney Gen-
eral Stead's opinion in detail, and
they have, as a result of that study,
prepared a case against the validity
of the petition which, they say, will
absolutely prevent its consideration
by the county clerk when the ballots
are prepared. They base their belief
on the following facts:

Questions Identical.

Section 292a of Chapter 46 of Re-
vised Statutes relating to the prepa-
ration and filing of petitions of can-
didates for public office in this state
among other things provides:

"Such sheets, before being filed,
shall be neatly fastened together in
book form by placing the sheets in a
pile and fastening them together at
one edge in a secure and suitable
manner, and the sheets shall then be
numbered consecutively."

The same section further pro-
vides:

"No signature shall be valid or
be counted in considering the valid-
ity or sufficiency of such petition un-
less the requirements of this section
are complied with."

Practically the same question was
submitted to the Hon. Wm. H. Stead,
attorney general of the State of Illi-
nois, by James A. Rose, secretary of
state, and the attorney general in an
opinion given to the secretary of
state July 26, 1910, passed upon this
question along with other questions
submitted to him by the secretary of
state.

Stead's Answer.

The opinion is found in the report
of the attorney general of Illinois
for 1910, at page 188, and the parts
of the opinion relating to the valid-
ity of the petition where the sheets
are not numbered is as follows:

July 26, 1910.

Hon. James A. Rose, Secretary of
State.

In your favor of the 23rd instant
you submit a number of questions
involving your duty as to primary
election petitions on file in your of-
fice. The first and sixth questions sub-
mitted by you present the same legal
questions and hence they are an-
swered together. They are as fol-
lows:

"1. If, in a primary petition of

tions and other causes, were filled. It
was arranged at the meeting to carry

the county between now and elec-

be made to get the entire vote out.

POOLE ATTEMPTS IMPOSSIBLE

ENDEAVORS TO OPERATE GASO-
LINE ENGINE WITHOUT
GAS THIS MORNING.

Friends of Webster Poole, the
laundryman, are considering the ad-
visability of purchasing for him, a
primer on the automobile. At least

Mr. Poole will be reminded within
the next few days that a gasoline en-
gine can't be persuaded to run with-
out gasoline. He invited City Clerk
Blake Grover to ride over to the milk
factory with him this morning, and
Mr. Grover accepted. As they near-
ed their destination the machine
stopped. Mr. Poole got out and in-
spected the "fixin's," and then cranked
away. No results, except an in-
crease of Mr. Poole's temperature.
He screwed away at every nut and
screw on the thing, but couldn't
start it. Finally Mr. Grover suggest-
ed that the oil might be out, and
when the driver looked he found the
gasoline tank as dry as a bone. Mr.
Grover will endeavor to have an or-
dinance passed making it a misde-
meanor for any auto owner to take a
friend for a ride without plenty of
gas in the tank.

RAILROADS ASK ABOUT PLAN

COPIES OF TELEGRAPH SENT TO
TELL STORY OF BIG STEAM
POWER STATION.

Secretary E. B. Raymond of the Cit-
izens' association this morning re-
ceived letters from the two railroad
systems which enter the city asking
for information concerning the build-
ing of the Illinois Utilities company's
big power station here. According he
sent them copies of the telegraph,
realizing that there was the first and
most complete information on the
subject.

Mrs. J. M. Boothby of this city and
Mrs. Lee Mellon of Sterling left this
evening for Los Angeles to spend the
winter.

Mrs. John Byers and daughter,
Mrs. Theresa Beahen and son Alva
and sister, Mrs. M. E. Wood, of

ing for California.

to build a \$3,000 house for \$4,000?

RAIN MAY AFFECT DIXON-CUB GAME

CONTINUED POSTPONEMENT OF
CUBS-SOX OPENER MAY CAUSE
CHANGE HERE.

ONE TEAM MUST WIN FOUR

Should Series Go Full Seven Games
Another Date Will Be
Necessary.

The rain which caused a postpone-
ment of the opening game of the
Cubs-Sox series yesterday and which
it was feared this morning would
cause a second delay today, may pre-
vent the exhibition game between
the Cubs and Dixon Browns in this
city next Tuesday, for should the
series go the seven games, it will be
necessary for the two teams to play
next Tuesday whether further post-
ponements are necessary or not.

The arrangements for the series
are for continuous games until one
aggregation has won four. Thus un-
less one of the teams takes the four
straight or four out of five, Dixon's
game will have to be postponed.
May Get Another Date.

In such case it is very likely an
other date, later in the week, will be
arranged for, as it is understood
the Cubs have promised Ward Mil-
ler, one of their number, to appear
in his home city.
Charles Miller and Eli Rosenthal
two of the local promoters, are in
Chicago to see the series between
the teams and doubtless have taken
the matter up with the Cub players
before this time, in an effort to se-
cure a new date. In case the game
can not be played on Tuesday, it is
possible arrangements will be made
for Friday, Oct. 18, the date origi-
nally considered.

M'KENZIE COMES AGAIN NEXT WEEK

RAIN INTERFERES WITH THE
WEEK'S TRIP.

Congressman John C. McKenzie
who was in Dixon several hours ye-
sterday on his way to Rochelle, left
this morning for his home at Eliza-
beth. The congressman expected to
visit several places in the eastern
part of Lee county today but owing
to the rain he postponed his visit
to the first of next week. He is tour-
ing the district in an auto. He left
his car at Rochelle. Monday morning
of the weather permits, he will visit
Ashton, Franklin Grove and several
places in the county, and later will
return to the county, visiting all the
towns.

ers proves effective, King George may
have to lead his subjects against their
ancient enemies, the Turks.

AMBOY CELEBRATION POSTPONED

RAIN CAUSES CHANGE IN DATE
FOR HOSPITAL BENEFIT
RACES

Amboy, Oct. 9.—Special.—The Am-
boy Gala day, which was to have
been celebrated tomorrow with races,
balloon ascension, etc., for the bene-
fit of the Amboy hospital, has been
postponed until Oct. 17, one week
from tomorrow. The postponement
was considered advisable because of
the rain and heavy track.

day.

BIG CROWD WILL ATTEND FIRST RALLY

REPUBLICANS WILL OPEN THEIR
CAMPAIGN AT ARMORY
THIS EVENING.

CLOSING WEEK TO BE ACTIVE

County Central Committee to Make
Whirlwind Campaign
Here.

Every indication is for the largest
crowd that has yet attended a polit-
ical meeting this fall, at the armory
tonight, when the first meeting in the
interests of the republican party will
be held. The announcement that the
republicans had rented the armory
for their headquarters and that the
remaining weeks of the campaign
would be exceptionally active has
aroused interest and those who have
heard the statements of the orators
of the other parties will find much
of interest tonight.

The speaker, Dr. Clark S. Thomas
of Elgin, is reported to be one of
the best speakers on the state com-
mittee's bureau. He is a thorough
student of politics and is capable of
a stirring address. He promises to
give a good old-fashioned talk this
evening and the campaign commit-
tee is leaving no detail unattended to
which will make this meeting the
most enthusiastic of the year.

The meeting will be called to or-
der promptly at 8 o'clock. There will
be music to give variety to the pro-
gram, and a special invitation is ex-
tended to ladies to attend this meet-

HOROSCOPE.

September 25, 26, 27, 28 29, 30

Are truthful, conscientious, pure in nature, somewhat prudish, musical, fond of poetry, studious, mathematical, somewhat doubtful of your ability; have an intensity of nature that may mislead. Still, you have immense power for good. You love to read, but if a woman of family, will sacrifice this desire. There are not many loose ends about things in your house.

Beautiful Hand

Two charming women were discussing one day what it is which constitutes beauty in the hand. They differed in opinion as much as the shape of the beautiful member whose merits they were discussing. A gentleman friend presented himself and by common consent the question was referred to him. It was a delicate matter. He thought of Paris and the three goddesses. Glancing from one to the other of the beautiful white hands presented for his examination, he replied at last: "I give it up; the question is too hard for me. But ask the poor, and they will tell you the most beautiful hand in the world is the hand that gives."

The new regent, Miss Loring, presided. The prospects are bright for a most successful year. Applications of three new members are in the hands of the Registrar.

The attendance was very good, and the hostess had provided a rare musical treat which was a surprise, as music was not on the program for the day.

Mrs. W. H. Smith presided at the piano. Ned Smith favored with two cornet solos, "Hosanna" and "The Rosary." Miss Gertrude Nesbit gave "The Lament of a Rose," and a mazurka by Osgood on the violin. Each artist was master in the chosen line. Their appearance before the Daughters was greatly appreciated. The regent in most fitting words thanked them in behalf of the chapter.

We must learn HOW TO ENJOY LIFE today. It is possible to think yourself into trouble. Many Dr. L. themselves into insanity. More Eat themselves into misery and disease. Booth and Oxford

"Through evil report and good report, and in spite of much physical disability, he slowly came into his own. To one who is aware of his beginnings and lifelong imitations it seems almost grotesque that staid, conservative Oxford—so jealous of her learning, so hearty in her abhorrence of 'the Philistines'—should have conferred on this man her degree of Doctor of Civil Law; but Oxford did it, and Booth deserved it. For into the very heart of Oxford and of all of decent English Booth had driven his own conviction that the most venerable of human laws are but a dead letter unless and until they are suffused and applied by the Higher Law of Love. All over the world there are thousands of well-to-do people who owe it to General Booth, and his blatant, conspicuous reminders, that they did not quite forget 'Who is My Neighbor?'" The Churchman.

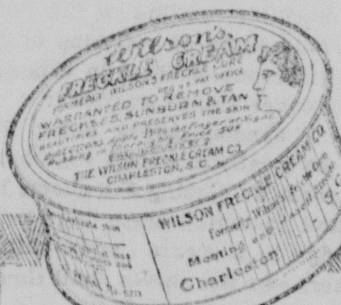

Husband Called Her Fat

Mrs. Tessie Marcussen filed a suit for separation from Leo Marcussen on the ground of cruelty. One of her chief allegations is that on many occasions he taunted her on account of her size and weight. She said last May he came home one night, awakened her and thrust in her face a newspaper advertisement of a remedy to reduce weight and advised her to use it. Mrs. Marcussen also said that a letter was sent to her from a Denver concern advertising treatment for stout women. It was an answer to a request for information. She believes her husband had the letter sent to humiliate and distress her.

Who Has Cured So Many in Illi-
nois, Will Be at Nachusa House.

FRIDAY, OCT. 11th
and Return Every Four Weeks,
From 11:30 a. m. to 8 p. m.

CONSULTATION AND ADVICE FREE.

Consult me in strictest confidence if you are afflicted with any contracted or inherited disease. Many men from fear that their troubles may become known by consulting a physician neglects the early symptoms of disease which if properly treated in the beginning would avert a serious chronic malady and save the men themselves much trouble, time, money, and annoyance in after years. I have cured hundreds of men of diseases that were thought incurable, and if you have been unsuccessfully treated don't lose hope of recovery until you have seen me and gotten my opinion of your case, and I tell you that your malady is an incurable one I will be frank with you and if I see that I can do you no good will tell you so. I never hold out false hopes to incurables. Charges are reasonable, my cures are lasting and I want you to pay for results only.

WEAK MEN

Cured Secrecy

What I want is men who have tried in vain to be made strong again I desire to explain why and how any such case can be quickly relieved and speedily cured by my methods, which can be done in most instances in a few weeks at longest and in any case for a small outlay of money at most.

LOST VITALITY

Cured in a few weeks. Improvements from the start, if you suffer from loss of energy and ambition, feel tired when you arise in the morning, lame back, blindness or spots on the eyes, and feel you were not the man you once were, I will cure you for life.

VARICOSE—Knotted Veins

Cured by absorption, no pain. The enlarged veins are due to pumps, bicycle or horseback riding, etc.

Cured Forever

Do not claim to cure a case in a few days then take weeks to relieve it and months to cure it, but I do claim, and can prove it, that I can cure forever any diseased man who will come to me in time. My method is scientific and has only been based as such after years of trial and a vast experience.

BLOOD DISORDERS

Overcome in 20 days, or no pay. Symptoms overcome in 17 to 21 days without chemicals or poison. If not better from ulcers, sore mouth, or throat, falling hair, bone pains, come and I will drive the poison from your blood forever by my New System Treatment.

I do Not Patch UP—I cure Forever

Dr. Guthrie will be in his office, Corner 1st. Ave. and 3rd. St. Sterling on Saturday, Oct. 12th from 10a m to 8 p. m.

Dementtown

Some classy weather for "the most beautiful month"—which October is, according to the steamed (almost) News.

E. C. suggests that flowers should not be entirely prohibited at the obsequies of the waterworks question. He wisely adds that water lilies would be appropriate. The amendment carries.

A friend inquires how much whiskey should be placed in the bull moose highball. Two horns, of course.

The world has stepped pretty far for that love-your-enemies stuff, but there's nothing to prevent our spreading coals of fire on their head. Provided, of course, that the coals are hot enough.

Every resident of Dementtown should attend the meeting at the armory this evening.

Among the things which we feel we could live very well without are the o. f. mustard plaster, detachable cuffs, sleeve elastics, home made shirts and friends who are continually telling us things for our own good.

Suddenly Developed Musical Taste.

A verp commendable public spirit is to be observed in one of our leading democrats, who also has suddenly developed a very pronounced musical taste. In fact this taste has become so acute that he has hired the only band in the city to dispense music to the residents of North Dixon this evening, at the John Dixon park—which has nothing to do with the republican meeting at the Armory tonight.

The Essential Facts.

After carefully analyzing all of Roosevelt's various statements in regard to Standard Oil contributions we find the facts to be essentially as follows:

1. The Standard Oil company never contributed to his campaign fund.
2. If the Standard Oil company did contribute to his fund he never knew it.
3. As soon as he heard that the Standard Oil company had contributed \$100,000 he ordered it returned.

4. The money was not returned but if it had been Mr. Frick of the Steel Trust would have made it good.

6. Everybody is a liar.

MENAGERIE A COSTLY THING

Captured Animals Cost Circus Man No Small Penny, Though Their Value Is Fluctuating.

"I want to take little 'Georgie' to see the animals," is what every father says when he starts away from home on his annual visit to the circus, and the same bluff goes for little Gwendolen on Commonwealth avenue and little "Mike" at the north end. Fond relatives always are glad of the excuse to teach the youngsters all about the animals—and see the circus themselves—but the chances are that they do not appreciate the true significance of a menagerie. To the circus visitor it means strange animals and thrills, popcorn and peanuts. To the circus company it means something like \$750,000, says the Boston Transcript. This figure, however, is by no means arbitrary, for the value of wild beasts fluctuates remarkably. Today the value of a rhinoceros may be \$10,000, but let a few more rhinos be hauled from their African lairs and be put on the European market, and the value per animal may drop 50 per cent.

Another thing that affects the valuation of wild animals is the question as to whether they are acclimated or "green." The mortality rate among the latter—animals fresh from the jungle—is exceedingly high. The wild animal that has demonstrated the fact that it can live in a cage, particularly a cage that hops, skips and jumps over the country with a circus, has more than tripled his value.

A fresh chimpanzee from Africa is worth from \$300 to \$1,000. Let this same chimpanzee prove by his continued existence that cage life is not mortally tedious to him and immediately his value leaps to \$2,500.

Another instance is the giraffe. In spite of the fact that it is a rare beast, its market value is only about \$7,000. The simple reason for this is that the giraffe in captivity has such a small chance of continued existence that the average showman does not care to gamble \$7,000 on it.

The elephant market fluctuates a great deal. The price of a "green" elephant runs from \$1,000 to \$5,000. On the elephant used to captivity and his value jumps; but train him to stand on his head, ring a bell, beat a drum or balance himself on a rolling ball, and immediately his value soars. That is why the herd of 40 elephants in one big show is valued at more than \$250,000. The animals born each winter in the menagerie of a large circus are worth about \$40,000.

Foiling a Briber.

The justice of the peace was in the south and a marked state of ignorance. He was approached by a man desiring a divorce, and he did not know what to do. Calling a friend to his side, he whispered:

"What's the law on this point?"

"You can't do it," was the reply.

"It's out of your jurisdiction."

The husband, observing the consultation and feeling keenly his desire to escape from the matrimonial yoke, exclaimed:

"I'm willin' to pay well; got the money right here in my sock."

At this the justice assumed his gravest judicial air. Obviously he was deeply pained. Never before in all his life had he been so bowed down by grief.

"You knew before you came here," he said sadly, "that it wasn't for me to separate husband and wife, and yet you not only take up the valuable time of this court by talking, but you actually propose to bribe me with money. Now, how much have you got in that sock?"

"About \$6.50, your honor."

"Is that so? Then I fine you \$5 for bribery and \$150 for taking up my time with a case out of my jurisdiction; and may the Lord have mercy on your soul!"—Popular Magazine.

Japanese Wedding.

"From beginning to end, curiously enough, religion does not play even a small part in a Japanese wedding. No priest appears at any stage. On the evening of the great day, the bride, with a white silk covering on her head and face, and entirely dressed in pure white—not the color of joy, but of deep mourning, for the girl is now parting forever from her parents, more so, indeed, than if it was death that had taken her away, for after death her spirit would continue to be present in the home of her childhood, whereas now both body and spirit are gone—is carried to her new home. There she changes her mourning for a festal garb. A feast is celebrated . . . the young couple withdraw . . . in the presence of only the middleman and his wife and of two young girls who act as servants, they pledge each other in very solemn form, three times from each of three cups. This ceremony . . . is the essential part of the marriage celebration."—Japan of the Japanese, by Joseph H. Longford.

Swift Turtle.

July is the month when the turtles come out of the sea and lay their eggs in the hot sand of the Florida keys.

A turtle will accomplish this task in half an hour. She will emerge from the blue water, crawl up the beach, well out of reach of tide, dig a trench four feet long and a foot deep with her flippers, make in the middle of the trench a deep cylindrical hole, and laying in this hole about one hundred eggs, she will fill up both hole and trench again and crawl back to the water.

If the hen could equal this celerity there would be more money in chicken than in Standard Oil.

DIVIDED INTO TWO CLASSES

Differing Processes of the Mind May Be Classified Either as the "Visual" or the "Auditive."

The great majority of people can be classified in one or other of two psychological types, corresponding to the great senses of sight and hearing.

These classes sometimes are called the "visuals" and the "auditives" respectively. The "visuals" or visualizers seem to conduct the majority of their mental processes by visual symbolism. They "think in pictures"; their mental method is graphic. The majority of women belong to this group, and, of course, the majority of painters, sculptors, architects, decorators, engineers and mechanically gifted people. Such people readily apprehend space relations, and can conceive new ones. If they possess this power in high degree they may paint fine pictures, build new types of architecture, conceive new machines.

The auditives, on the other hand, think more in sounds and words and not in pictures. They naturally include the musicians, the men of letters and the scientific and philosophic among men than among women. They notice things around them less, and are more commonly credited with being "absent-minded."

If great development of either is rare, vastly rarer is great development of both in one and the same individual. Such individuals stand out as the few supreme examples of what we call versatility, and of these the most notable representative in the history of the world is Leonardo da Vinci.

SOME REALLY GRAND OLD MEN

Historical Records of Longevity That by Rights Should Be Accompanied by an Affidavit.

The Mexican who has just died at the alleged age of 185 has been predeceased (according to American news) during the past dozen years or so by a citizen of New Brunswick aged 122, and a comparative youngster of Valley Mills, Tex., whose age was only 115.

The man in the street will be pardoned for thinking that the 185 has been inadvertently transposed from a cricket report. Among ex-biblical heroes probably Auld Parr and Henry Jenkins will stand as the best authenticated instances of superlongevity. The monument at Bolton, Yorkshire, records that Jenkins attained "the amazing age of 165."

"A man is 86," observed Mr. Daubey recently, "looks down on a man is 83, and receives his callow opinions with a supercilious smile," and for that reason probably (if not because he was a fisherman) Jenkins was able to give evidence on oath concerning matters 140 years or so previous. As a hale young centenarian he was in the habit of swimming the Swale "with ease," and as a boy he is said to have taken a horse-load of arrows to be forwarded north for the battle of Flodden.—London Mail.

Interesting Search.

William Dana Orcutt, whose new novel, "The Moth," has just been published by the Harpers, is noted for his extreme diligence in verifying all historical facts that appear in his novels. When writing one of his earlier novels, "The Spell," he made a special trip to Florence in order to verify certain allusions and locations. One of the first pilgrimages was to San Domenico to find the ancient inscription upon the wall, which Helen Armstrong points out to her husband in the first chapter. Says the author, "I had never been able to discover where I obtained this data, so was particularly anxious to verify it. One morning, accompanied by Mrs. Orcutt, I set out on what seemed a hopeless quest. We located the old Etruscan wall, with its curious marks, but no legends. Finally we came to some flaring posters announcing an auction sale, and beneath these, when pulled aside, we found the Latin words, cut deep in the stone."

German's Slot Literature.

Penny in the slot literature is the latest thing in Germany. A firm of publishers at Leipzig has patented an automatic machine which gives a choice of a dozen small paper covered volumes which are displayed behind glass. On a strip of paper across each volume is printed a brief description of the book, and a coin in the slot does the rest. These automatic machines are to be placed in hotel lobbies, waiting rooms, theater foyers and other public places. The hope is expressed that as the books offered are carefully selected and by first-class authors the venture may have a beneficial educative effect upon the masses and thus counteract the influence of the cheap and trashy literature with which the country is flooded.—Exchange.

Fame.

Great minds had rather deserve contemporaneous applause, without obtaining it, than obtain without deserving it; if it follow them, it is well; but they will not deviate to follow it. With inferior minds the reverse is observable; so that they can command the flattery of knaves while living, they care not for the exaltations of honest men when dead.

Milton neither aspired to present fame, nor even expected it; but (to use his own words) his "high ambition was to leave something so written to after ages, that they should not willingly let it die." And Cato finely observed that he would much rather that posterity should inquire why no statues were erected to him, than why they were.

BALKAN WAR ON; HUNDREDS KILLED

Montenegro Starts Fighting With Attack on Eight Turkish Battalions.

SLAUGHTER TURKISH WOMEN

King of Montenegro and Son Leave Capital for the War—Constantinople Wild With Excitement—Europe's Hopes of Peace Gone.

Vienna, Oct. 9.—First of the fevered Balkans to spring at the throat of the Turk, little Montenegro is locked in a death grapple with the Mohammedan foe. Twenty-four hours a ferocious battle has raged between them.

Hundreds are reported to have been killed on both sides and the latest meager reports to trickle back from the remote scene of the conflict indicate that hundreds more must fall. The fight is being fought on the frontier, near Tuzli. On the Turkish side are eight full battalions of trained troops. The Montenegrin force consists of an indefinite number of Montenegrin soldiers and Malissori tribesmen—desperate men of the Albanian hills, who know more about fighting than they do about tactics.

Turks Are Massacred.

Vienna, Oct. 9.—According to a dispatch from Olténitza, Roumania, to the Neues Wiener Tageblatt, a massacre occurred at Turmukia, in Bulgaria, near the Roumanian frontier.

Egged on by agitators from Rustehuk, Bulgaria, armed Bulgarians attacked the Turkish inhabitants at the dead of night, pillaged houses and executed an appalling slaughter, even women and children being sacrificed. The Turkish quarter presents a spectacle that is described as horrible. Piles of corpses line the streets.

King of Montenegro Off to War.

Cettinje, Montenegro, Oct. 9.—Turning a deaf ear to the final peace importunings of the Russian and Austrian ministers, King Nicholas, with his son, Prince Mirko, have left for army headquarters at Podgoritza.

The occasion was one of the most memorable in the history of Montenegro. The entire populace was out to cheer him off and all the bells in the city were tolled. The ministers of the Balkan states were the last to shake the king's hand.

The Montenegrin government has delivered passports to the Turkish charge d'affaires.

Constantinople Has War Spirit.

Constantinople, Oct. 9.—Constantinople is a scene of unprecedented martial activity. A consul of war has been in session at the Grand Vizierate since afternoon, when Montenegro's declaration of war was announced, and plans for the conduct of the many sided conflict are being formulated.

The Bulgarian, Grecian and Servian ministers have received no instructions from their governments, but they have made everything ready at their legations to make instant departure upon the receipt of the inevitable proclamations of war.

Peace Now Seems Hopeless.

London, Oct. 9.—Montenegro having declared war against Turkey, diplomatic circles are waiting like formal declarations from Serbia, Bulgaria and Greece.

Although the powers have not ceased their efforts toward a peaceful settlement, they now regard their task as hopeless.

FUTURITY TO MONRICO

California Horse Lands \$14,000 Kentucky Race Classic.

Fifteen Thousand Witness Great Event on Trotting Horse Breeders' Track at Lexington.

Lexington, Ky., Oct. 9.—Upward of 15,000 people were present at the Kentucky Trotting Horse Breeders' association track here to witness the trotting of the twentieth renewal of the \$14,000 Kentucky Futurity which event was as usual a hard fought battle taking six heats to decide and again the colt showing the greatest power of endurance landed the prize. Baldy McGregor, a son of Jay McGregor, driven by "Billy" Andrews, was favorite and took the first heat easily in 2:07½, but could not come back in the second or third which were won by Rhythmell, a daughter of the blind Rhythm. In the fourth race the California owned horse Monrico, driven by W. G. Durfee, to the front, he easily came back in the fifth and sixth heat, winning what is said by turfmen who have witnessed the trotting of this stake annually for over twenty years, the hardest fought futurity ever trotted over the local track. The last heat was trotted in 2:07½, a world record for a sixth heat.

Yellow Fever on Steamer.

New Orleans, La., Oct. 9.—A well developed case of yellow fever was taken from the British steamer Chaucer when the vessel arrived at quarantine station at the mouth of the Mississippi river. The patient is a Greek, who boarded the steamer at Santos, Brazil.

RED SOX DEFEAT N. Y. GIANTS, 4-3

American Leaguers Knock Tesreau Out of Box in Seventh Inning.

WOOD FANS TWELVE BATSMEN

Game Replete With Sensational Plays and the 40,000 People Present Found Ample Opportunity to Vent Their Enthusiasm.

New York, Oct. 9.—The Boston Red Sox defeated the New York Giants in the first game in the series for the championship of the world by the score of 4 to 3. The Red Sox played the same steady, consistent game that won for them the championship of the American league.

Speaker got the first Red Sox hit off Tesreau. It was in the sixth and was a three bagger.

The Red Sox got to Tesreau in the seventh, scoring three runs and forcing "Big Jeff" from the box.

Wood showed his strength in the ninth. After the Giants, with men on first and third, the Boston twirler struck out Fletcher and Crandall in succession. Wood's speed increased as the game progressed.

Joe Wood, Boston's premier pitcher, was at his best. Although the Giants made 9 hits off of him, he balanced this by striking out 12 men. New York was unable to bunch their hits to advantage except in the third inning, when they scored two runs on two hits.

Tesreau, first man up in the third, struck out. Devore walked. Doyle doubled to left. Devore taking third. Snodgrass struck out. Murray singled to right, scoring Devore and Doyle. Murray was out trying to stretch it into a double. Speaker to Cady to Wagner.

In the eighth inning McGraw rushed Crandall to the slab in an endeavor to stave off defeat, which seemed certain after Boston had made three runs, but he only succeeded in holding the Red Sox, and the pinch hitters failed to respond with the needed hits.

Realizing the great advantage in winning the initial game, both sides trotted out their star pitchers. Tesreau, who has been the most consistent winner for the Giants, was Manager McGraw's selection. Manager Stahl of Boston decided to pin his faith to Joe Wood. Myers did the catching for New York, and Cady was back of the bat for Boston.

Game Replete With Sensations. The game was replete with sensational plays, and the great crowd found ample opportunity to give vent to their enthusiasm.

Nearly 40,000 fans had crowded through the gates at the Polo grounds by 12:30. Mayor Gaynor of New York and Mayor Fitzgerald of Boston laid aside the cares of officialdom and joined in the cheering for their respective teams. The mayors sat in an upper tier box. Not a cloud flecked the sky and the ball players agreed that it was a rare day for the sport.

CUBAN GETS 2 1-2 YEARS

That Is Penalty for Attack on American Charge d'Affaires.

Havana, Oct. 9.—Enrique Maza, a Cuban newspaper man, who recently assaulted Hugh S. Gibson, the American charge d'affaires, was sentenced to two and a half years' imprisonment. This is not the extreme penalty under the Cuban law, but was considered by the court as a fair equivalent for the same offense in the United States.

Woman's Throat Is Cut.

Newark, N. J., Oct. 9.—Mrs. G. F. Rutherford was thrown from a runaway across a barbed wire fence, west of the city, and her throat was cut by one of the barbs from ear to ear. Her little son escaped injury.

Mrs. Taylor of Kewanee is here on a visit with her sister, Mrs. R. L. Jensen. She expects to remain for some time.

The Amboy Women's club was entertained at the home of Mrs. Anna Klein on Monday afternoon. Mrs. H. W. Bentley of Freeport was present and addressed the ladies. She gave a

very interesting and instructive report of the National Federation of Women's clubs, which was held at San Francisco the past summer. Mrs. Bentley attended the convention as a delegate. Miss Jeanette Vaughan favored the ladies with two pretty piano solos. At the close of the program refreshments were served and a social hour enjoyed. Mrs. Bentley was entertained at the home of Mrs. Harry Badger while here. The club will meet with Mrs. Jacobs Monday afternoon, Oct. 21. Subject, The Labor Problem. "No man is born into the world whose work is not born with him."—Lowell.

The entertainment given by Miss A. Elise Smith, soprano and violinist; Miss Ione Hardy, reader, and Miss Dorothea White, accompanist, was largely attended. The young ladies are all artists and every number was heartily enjoyed, and cheerfully responded to. At the morning service

at the Congregational church Sunday, Miss Smith sang a very pretty sacred solo, accompanied by Miss White. The ladies left for Dixon on Sunday afternoon.

Rev. Merrill being absent from the city attending the conference, there were no services at the M. E. church Sunday.

Miss Grace Cavins returned from Ottawa Sunday afternoon, after a few days visit with her friend, Miss Olmstead.

Mr. Forsyth of Eureka is a guest at the James home on Jefferson avenue.

It is hoped the weather man will be kind enough to send us nice weather Thursday, when the races will be held in Amboy in the afternoon and a big dance in the opera house will be given in the evening. These events are being given for the benefit of the Amboy hospital.

The physiology class of the Amboy

high school, of which Miss Grace Cavins is teacher, visited the Sanitary Creamery company Tuesday, as a class. They have paid many visits to such concerns and manufacturing plants in this city. They have also been out of town on visits of this kind.

The Eastern Star chapter met for their regular meeting Tuesday evening at Masonic hall.

Mark Smith went to Chicago this morning.

Misses Mary and Elizabeth Maddick have returned to Chicago after a visit with Dixon relatives and friends.

Mr. and Mrs. E. M. Goodsell have returned from a visit with Freeport relatives.

E. M. Goodsell went to Morrison today on business.

Mrs. S. W. Lehman has returned from a visit in Chicago.

SUFFERED TORMENT WITH ECZEMA

For Many Years, On Thigh. Also on Scalp. Awful Itching Skin. Could Not Sleep. Cuticura Soap and Ointment Completely Cured.

Lebanon, O.—"My eczema started on my thigh with a small pimple. It also came on my scalp. It began to itch and I began to scratch. For eighteen or twenty years I could not tell what I passed through with that awful itching. I would scratch until the blood would soak through my underwear, and I couldn't talk to my friends on the street but I would be digging and punching that spot, until I was very much ashamed. The itching was so intense I could not sleep after once in bed and warm. I certainly suffered torment with that eczema for many years. "I chased after everything I ever heard of: all to no avail. I saw the advertisement for Cuticura Soap and Ointment, and sent for a sample. Imagine my delight when I applied the first dose to that awful itching fire on my leg and scalp, in less than a minute the itching on both places ceased. I got some more Cuticura Soap and Ointment. After the second day I never had another itching spell, and Cuticura Soap and Ointment completely cured me. I was troubled with awful dandruff all over my scalp. The Cuticura Soap has cured that trouble." (Signed) L. R. Fink, Jan. 22, 1912. Cuticura Soap and Cuticura Ointment are sold throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston." *Tender-faced men should use Cuticura Soap Shaving Stick, 25c. Sample free

Mercy an Arab Showed.

Abd-El-Kader, who died in 1883, is one of the noted patriots of Algiers. In 1833 when the Arabs rose up and tried to free themselves from the French Abd-El-Kader as sultan led his people against the French armies.

For fourteen years the war was waged, and though he had but few followers, his methods of attack and ingenious maneuvers, together with the wonderful power he held over his people, made it necessary for the French to send one hundred thousand soldiers into that country before they could conquer it. Before Abd-El-Kader's time the Arabs killed their prisoners. He treated them kindly, as guests, sending them money, clothes and food. Some women were once captured and brought to him, and as he set them free he exclaimed: "Lions attack strong animals; jackals fall upon the weak."

GET 11 BECKER JURORS

Jury in Police Official's Case Nearly Completed.

Every Man Selected Was Personal Choice of Accused Lieutenant—Whitman Heavily Guarded.

New York, Oct. 8.—The trial of Police Lieutenant Charles Becker, on the charge of having instigated the murder of Herman Rosenthal, was adjourned by Justice Goff after the eleventh juror, John K. Dillon, had been selected.

At the time of adjournment 111 talesmen had been examined in order to get the eleven jurors now in the jury box. The defense had used twenty-five peremptory challenges and the district attorney had used eighteen.

The jurors selected are: Harold B. Skinner, Robert C. Parnell, John B. Hardy, Edward C. Soule, William P. Ward, Dow J. Becker, Charles J. Pratt, Leslie A. Ware, Clarence T. Coley, Paul T. Kemmerer, John E. Dillon.

Every man selected was the personal choice of Becker. He watched their actions while under fire of the examiner's questions with the eye of a hawk and listened intently to their answers. Many who answered the questions satisfactorily were rejected solely because Becker did not want them.

His wife, the soft-eyed little woman in blue, who again followed the proceedings from a chair in an obscure corner of the court room, seldom turned her gaze from Becker.

District Attorney Whitman's bodyguard was on watch throughout the day, as a result of renewed threats against that official's life.

Mrs. Helen Klein of Chicago is here visiting at the home of H. Gold, her brother.

H. Gold returned last evening from a business trip to Chicago.

Roy Wadsworth of Harmon was in Dixon today.

Leave your call with

Big Ben, he'll call you on the dot at any time you say.

And if you roll over and try "just-one-more-nap," he'll repeat his call 30 seconds later and keep on calling until you're wide awake.

Big Ben stands 7 inches tall—He's heavy, massive, handsome. He's got a great, big dial you can easily read in the dim morning light, a sunny deep toned voice you'll hear distinctly on your sleepiest mornings.

I've placed him in the window. Look at him whenever you go by.

ELDERLY FOLKS! CALOMEL, SALTS AND CATHARTICS AREN'T FOR YOU

HARMLESS, GENTLE "SYRUP OF FIGS" IS BEST TO CLEANSE YOUR STOMACH, LIVER AND 30 FEET OF BOWELS OF SOUR BILE, DECAYING FOOD, GASES AND CLOGGED-UP WASTE

You old people, Syrup of Figs is particularly for you. You who don't like the easy chair. You, whose steps are slow and whose muscles are less elastic. You must realize that your liver and ten yards of bowels have also become less active.

Don't regard Syrup of Figs as physic. It stimulates the liver and bowels just as exercise would so if you took enough of it. It is not harsh like salts or cathartics. The help which Syrup of Figs gives to a torpid liver and weak, sluggish bowels is harmless, natural and gentle.

When eyes grow dim, you help them. Do the same with your liver and bowels when age makes them less active. There is nothing more important. Costive, clogged-up bowels mean that decaying, fermenting food is clogged there and the pores or ducts in these thirty feet of bowels suck this decaying waste and poisons into the blood. You will never get feeling right until this is corrected—but do it gently. Don't have a bowel washday; don't use a bowel irritant. For your sake, please use only gentle, effective Syrup of Figs. Then you are not drugging yourself, for Syrup of Figs is composed of only luscious figs, senna and aromatics which cannot injure.

A teaspoonful tonight will gently but thoroughly move on and out of your system by morning all the sour bile, poisonous fermenting food and clogged-up waste matter without gripe, nausea or weakness.

But get the genuine. Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna." Refuse with contempt any other Fig Syrup unless it bears the name—prepared by the California Fig Syrup Company. Read the label.

THE IMPORTANCE OF GOOD LIGHTING

A great deal depends on it. In a store, badly located lights ignore a valuable means of heightening the attractiveness of goods. Besides a poor scheme of arrangement wastes light and therefore wastes money. In a room used by desk or bench workers, bad lighting produces eye strain. And the manifest of that is decreased working power. Electricity of all illuminating agents alone adapts itself to any condition that must be reckoned with to secure the best effects.

Our experts devote much attention to the science of indoor lighting. They are always ready to advise with anyone whom the subject interests.

NUMBERS NECESSARY ON PETITION-STEAD

Continued from page 1

several sheets, the correct title of the office be named with the number of the district (as representative in the general assembly for the 45th district) on one sheet only while the other sheets necessary to make up the required number of names give the title of the office as 'representative' and fail to give the number of the district, does the information contained on the one sheet alone, as to title of office and number of district, warrant the secretary of state in certifying the name of the candidate so petitioned for, as the candidate for the office and the district described on the single sheet?"

"6. If, in a primary petition, the sheets are not numbered nor bound together, will such defects or either of them invalidate the petition? If 'yes,' what is the secretary's duty as to such defective petitions which have already been received, filed and receipted for?"

"No signature shall be valid or be counted in considering the validity or sufficiency of such petition unless the requirements of this section are complied with, except as herein otherwise provided."

Section 28. The effect of this provision is, in my judgment, to make the requirements of section 28 highly mandatory. The heading of each sheet must state, among other things the office to which the person named in the petition is requested to be a candidate for nomination and "the heading of each sheet shall be the same." Section 28.

"Such sheets, before being filed shall be neatly fastened together in book form * * * and the sheets shall then be numbered consecutively." Section 28.

Neglect or failure to observe either or any of the requirements of Section 28, as to stating the name of the office in the heading of each sheet, or binding or numbering, will, therefore, in my opinion, render the petition invalid.

In my opinion no mandatory duty rests upon the secretary of state to certify to the county clerks the names of candidates whose petitions are defective in the particulars indicated.

Very respectfully,

W. H. STEAD,
Attorney General.

Language is the Same.

The opinion of the attorney general is in answer to questions propounded to him concerning certain requirements of the primary election law of Illinois, Section 292a of Chapter 46 under which the petitions of the county candidates of the progressive party for Social Justice were prepared and filed is a part of the general election law of the state. In passing the primary election law it is very clear that the legislature in making provisions for safeguarding against fraud in the filing of petitions copied the general election law as the wording of the two laws is exactly the same and the construction that would be given one law surely would be followed in determining the meaning of another Act containing the exact language.

Improperly Sworn To.

In addition to the above situation, the objectors to the petition claim to have discovered another phase which will completely invalidate a part of the petition, on the ground that the part in question was sworn to before a person who, under the

statutes, had no power to acknowledge an oath.

They charge that part of the petition was sworn to before Arthur G. Harris, chairman of the progressive executive committee, on Oct. 5, and that Mr. Harris' commission as a Notary Public, as which he acknowledged the oath, expired over a year ago. Expired Sept. 29, 1911.

They charge that the record at the county clerk's office show that Mr. Harris was appointed a Notary Sept. 30, 1907, and that his commission expired Sept. 29, 1911. Even should he have been reappointed the part of the petition acknowledged by him is invalid, they allege, for in the event of his reappointment he did not comply with the statutes in having his reappointment certified to the county clerk, which would prevent him entering upon the duties of his office.

As proof of this statement they submit section 5 of chapter 99 of the revised statutes of Illinois, relating to notary public, which, after providing for the manner in which they shall be appointed, is as follows:

"He shall also, before entering upon the duties of his office, have a memorandum of his appointment, and the time when his office will expire, entered in the office of the county clerk of his county in a book to be kept for that purpose by said clerk, for which entry he shall pay a fee of twenty-five cents."

IS MADE A DUMPING GROUND

Salvation Army the Not Altogether Willing Recipient of All Kinds of Spoiled Food.

If the pure food commissioners ever get after the Salvation Army's commissary department they will no doubt make an interesting raid.

"The stuff they would confiscate is not the output of our kitchens," said an army collector. "It is donated by people who have made a mess of what they tried to cook. This morning a woman telephoned that a ten-pound fruit cake and a jar of currant jelly had not turned out satisfactorily, and I could have them for the trouble of calling for them. I went. The cake is pretty heavy and the jelly is not jelled, but I think the ingredients are pure, so we are going to distribute the stuff among our poor families. Unfortunately all donations are not so innocent. Bread and cake solid enough to sink a gunboat and chunks of meat so poorly cooked that not even a French chef could turn them into a savory stew are sent in by incompetent cooks. Where people ever got the notion that the Salvation Army is a dumping ground for undesirable eatables is a mystery. We certainly never asked for them."—New York Press.

Marvelous Surgical Feat.

An ex-soldier, named Blomquist, has just been pronounced cured. In Stockholm, Sweden, after one of the most remarkable operations on record. A year ago Blomquist was accidentally shot in the head during the maneuvers, and it was found that one half of the brain had been injured, and that the only chance of life for the patient lay in its removal. After much deliberation by the doctors the perilous operation was performed, with the marvelous result that within a few weeks Blomquist recovered. He was in full possession of all his faculties, but on being tested in the matter of reading and writing, he was found to have entirely forgotten the meaning of the alphabet and numerals. One of the doctors undertook to re-teach him all the forgotten lore, and after a not very considerable time and much industry, Blomquist is again able to read and write. He has now left the nursing home, where he has been under the care of the doctors, and returned to work on his farm. He is robust in health and shows no trace physically or mentally of the extraordinary experience he has had.

A NOVEL MEMORY TEST.

For the Best Memories 20 Prizes.

Some people say, 'I simply can't remember names, but I never fail to recognize faces.' Others say just the opposite. They can remember names but not faces.

It is altogether a matter of memory.

And as memory often proves to be a very important factor in life, it pays to train and cultivate it.

In our next issue this paper will submit to you a very novel but true test of your memory.

It consists of a remarkable composite photograph of "People Everybody Should Know."

Undoubtedly you have seen each portrait in the group at some time or other. You have seen them published scores of times in publications of all kinds. These, of course, you can recognize instantly, but the number you can name depends largely on how well your memory serves you, and how observing you are.

Kings of empire, of finance, of politics, of opera, of literature, of invention—kings of all kinds—will be included in the remarkable illustration to be published by this newspaper—not to mention the reigning queens of today.

The group includes three of the richest men in the world. You can probably identify two of them at a glance. But comparatively few people can identify the third. If you can it may make your list just large enough to win a reserved seat for Lyman H. Howe's Travel Festival at the opera house Tuesday, Oct. 15th. You may not need the extra name in order to have your list included in the twenty nearest correct, but in case you do, here are a few "tips" concerning this mysterious Croesus. He is a man whose tastes one moment are ultra-modern and the next he revels in barbaric Oriental splendour. He is a potentate of the east who, today is all that is progressive and up to date in science, while tomorrow he reverts to eastern customs and the mysterious glamour of by-gone centuries. His whole life is a startling procession of blinding contrasts. For several hours he indulges in golf, tennis, roams through his immense treasure vaults or motors in cars of the most luxurious and powerful type. Shortly after he may be seen on an elephant bearing a howdah of solid gold—an exact counterpart of those upon which sat enthroned monarchs of tens of centuries ago. He has gorgeous palaces, fabulous heaps of precious stones, gold and silver—the richest treasure hoards in the world—even though he does not look the part. Another tip. In addition to his life of extraordinary incongruities he was very much within the limelight within a year because of an act that shocked an entire nation on account of its daring defiance of ceremonial. Furthermore he has a pronounced preference for Americans and American institutions which he showed by sending his sons to a great American university. While he might easily be taken for a typical American Captain of industry, he is in fact a despot of the most approved Oriental type, although an enlightened despot who distributes his vast revenues through out his dominions among a population of over four million people over whom he wields almost absolute power of life and death.

You will see him in the illustration in our next issue combined with the American presidential possibilities (and one or two impossibilities)—with the great and near-great, the wise statesmen, brave soldiers, clever politicians, shrewd financiers—and last but not least—the founder and director of an attraction which has been of untold benefit in broadening the mental horizon of thousands of Americans, by bringing them scenes from every land and presenting them so vividly that it makes us feel as close to other nations as the characters in the illustration to be published in our next issue would feel if they assembled in one group to pose for such a photograph. More over it is as international in its scope as the illustration will be. You will naturally infer that this is Lyman H. Howe's Travel Festival since there is

G O D

said unto him, "Thou fool, this night thy soul shall be required of thee: then whose shall those things be which thou hast provided? So is he that layeth up treasure for himself and is not rich toward God.—St. Luke 12: 20-21.

HE said unto them all, "If any man will come after me let him deny himself, and take up his cross daily and follow Me."—Luke 2: 23.

For whosoever will save his life will lose it; but whosoever shall lose his life for My sake and the gospel's, the same shall save it. For what shall it profit a man if he shall gain the whole world, and

LOSE HIS (YOUR) OWN SOUL

Or what shall a man give in exchange for his soul?

Whosoever therefore shall be ashamed of me and of my words in this adulterous and sinful generation; of him also shall the Son of Man be ashamed when He cometh in the glory of His Father with the holy angels.—St. Mark 8: 35, 36, 37, 38.

And fear not them which kill the body but are not able to kill the SOUL, BUT rather FEAR HIM which is able to destroy BOTH SOUL AND BODY IN HELL.—Matt. 10: 28.

IT IS BETTER FOR THEE (whoever YOU are) to enter poor, halt or maimed into LIFE and the KINGDOM OF GOD than to possess ALL the honor, wealth and wisdom of this world and be cast into HELL fire—where the worm dieth NOT and the fire is not QUENCHED. (See the LORD JESUS' own words in Mark 9: 43 to 48.)

"AFTER DEATH—THE JUDGMENT!"

And I saw the dead, small and great (YOUNG and old, RICH and poor) STAND BEFORE GOD; and WHATSOEVER was not written—in the BOOK OF LIFE was cast into the lake of FIRE.—Rev. 20: 12, 15.

an individuality and an art to Mr. Howe's exhibitions that is so superior, and its educational value is so great, that its fame is as world-wide as that of the portraits to appear in our next issue.

Senders of the twenty lists nearest correct will each receive from this newspaper a reserved seat ticket to girdle the globe with Lyman H. Howe at the opera house Tuesday, Oct. 15.

Animated scenes of ineffable beauty that will linger in the inner sight long after they have vanished from the screen, will be presented by Lyman H. Howe at the opera house on Tuesday, Oct. 15. They take the audience in and around Paris, to his- toric Versailles and through the de- lightfully picturesque rivers of France. The reproduction of these scenes in the actual and exquisite colors of nature enhance their beauty to a degree that defies description.

Whaling, the burial of the Maine, the bee industry, a thrilling race between a hydroplane and an 800 h. p. motor boat in the harbor of Monaco and an exciting adventure with a ferocious lion are only a few of the other features on a program that is entirely new, excepting only that amazing botanical study entitled The Birth of Flowers, which Mr. Howe will present again in response to popular demand. No other production that he has ever presented has elicited such numerous requests for another presentation and it is in deference to this wide demand that he offers his patrons another opportunity to peer into one of nature's great secrets.

A SANITARY PRECAUTION IN THE HOME.

A stained or discolored water-closet bowl is a most unsanitary and unpleasant object in any home. Many are neglected because keeping them clean by the old methods is such a disagreeable and unsatisfactory task.

But now Sani-Flush has removed every excuse for a dirty water-closet bowl. It is a powdered chemical compound—disinfectant and deodorant that does the work by chemical action without scrubbing or scouring. You need never touch the bowl with your hand, yet Sani-Flush will make it as white and clean as when new.

Sani-Flush positively cannot injure the plumbing. It is economical to use, as a little goes a long way, and a large can costs but 20 cents. Every housewife should take advantage of the ease and quickness with which Sani-Flush acts and make clean and sanitary every water-closet bowl in the house.

SCIENCE RECORDS A TRIUMPH

After Research It Has Been Ascertained Just Why the Hungry Man Tightens His Belt.

Remembering the habit of tramps to tighten their belts when hungry, Prof. Dr. Rudolf Lennhoff decided to investigate the efficiency of this simple remedy in actually suppressing hunger. Assisted by physicians he made use of the property of the X-rays of being arrested by metals and their salts. Persons were given drinks which contained in suspension salts of bismuth or ligated lodestone, or they were required to eat solid food, such as mashed potatoes, which had previously been mixed with metallic salts.

Dr. Lennhoff reports to the *Vossische Zeitung* the following results: In the case of solid food, a contraction of the stomach could be observed, and a relatively small quantity proved to be sufficient to satisfy the appetite. When liquid food was given in the ordinary way—i. e., by swallowing—the contraction was considerably less, and a larger quantity was necessary for satiation.

In a third experiment the liquid was introduced into the stomach through a tube; in this case twice the quantity of liquid was required.

These experiments showed that the mechanical stimulus of swallowing by reflex action causes a contraction of the stomach, thus accelerating satiation. This suggested that by artificially increasing the pressure on the stomach satiation could be accomplished with a smaller quantity of food. The trick of the hungry tramp was therefore resorted to, and a belt was applied tightly around the waist of the eater. The result was as anticipated.

OWNED HISTORIC OLD HOTEL

Prior to Structure Built Around Cabin of Captured British Frigate Is Dead.

Jacob Smith, hotel proprietor of City Island, New York, died there at the age of seventy-three years. Mr. Smith's hotel has for years been one of the show places on the island. It was known as the Macedonian hotel, because it was built around the cabin of the British frigate *Macedonia*, which was captured by the United States frigate *Decatur* off Cape Verde islands during the war of 1812. After the engagement the *Macedonia* was towed to what is known as Cow Bay, City Island, and there Smith acquired it in 1874, pulled it on land and structurally added to it. In time he had a building large enough to accommodate a number of persons.

Three years ago a member of a historical society in England, which had learned of the existence of the *Macedonia*, came to City Island and offered Mr. Smith \$20,000 for it, but he would not sell. He said he wanted it to remain in the family, which consists of seven daughters and two sons.

Fortunate Little Waif.

A romantic history attaches to a pretty little founding at present being cared for in the West Ham and Eastern General hospital, London, England. A Stratford resident going home late one recent night heard a cry, the wail of a newly born child. He jumped over into a field situated in Knox road, struck a match, and discovered a bonny baby boy. The man conveyed the child to the police, who in turn took it to the West Ham hospital. "We could not think of sending him to the workhouse," the kindly ward sister stated, "and he is now the little 'duke of the ward.' He is daily gaining strength to fight the world, and we should like to find a good home for baby very soon. We called him 'Peter' to bring the little fellow good luck, and the cabbage patch is where he was found." This little founding, who is quite alone in the world, has big blue eyes and pretty fair hair. He sleeps all day in a cozy hammock cradle in one of the children's wards, and is beloved by nurses and patients alike.

Colors of Sea Water.

It has been proved that the blueness of sea water is in constant ratio to its saltness. In the tropics the tremendous evaporation induced by the blazing sun causes the water to be much more salt than it is in higher latitudes.

For about 30 degrees both north and south of the equator the waters of the world's oceans are of an exquisite azure. Beyond these latitudes the blue fades and changes to green, and in the Arctic and Antarctic oceans the greens are almost as vivid as the tropical blues.

China's Yellow sea is usually supposed to owe its origin to the flood of muddy water which its great river pours into it. But here, again, modern science has proved that living organisms are responsible for its peculiar tint.

A Tangle.

A case of singular corruption on the part of an attorney caused Miss Jane Addams, the Chicago welfare worker, to say at Hull House:

"This case reminds me of a man who was being tried for the theft of a ham. The opposing lawyers shuffled so, they confused the witnesses so, they so strained their own statements—in a word, they got the case into such a formidable tangle of falsehood and mendacity that at last the prisoner, in a tremulous voice, spoke up and said:

"Judge, if you'll make them lawyers set down and shut up for a minute, I'm willing to whirr in and tell the truth."

DUCK RIDES ROOM OF FLIES

Management of Chicago Hotel Will in the Future Pin Its Faith to Domestic Bird.

The manager of a big Chicago hotel has found a very simple solution of the fly problem. It is a flock of ducks. The ordinary hotel perhaps has no particular accommodations for live ducks; but in this there is a fountain in the center of the approaches to the various dining rooms. The fountain has a large basin, and just by way of novelty the manager several months ago placed a few ducks in the water. They paddled around and enjoyed it, and the guests enjoyed seeing them. But, better still, the ducks also enjoyed the flies that attempted to enter the dining rooms and feast upon the good things therein. The flies—in Chicago, at least—fly low; and ducks, as any one who has ever seen them knows, are especially quick in catching insects. The consequence is, this particular hotel, once troubled with flies, now has practically none. And the ducks, once lean to verge of scrawny, are fat and sleek.

The duck method of disposing of the fly nuisance cannot, of course, obtain in private households to any degree; but in this particular hostelry the ducks have caused the wire fly swatter and traps to be thrown into the ash heap.

Perhaps next year the enterprising manager will attach some sort of a meter to every duck, so that at the end of the season he can tell how many flies each busy fowl has disposed of with neatness and despatch.

GERMANY LAST OF EMPIRES?

Kaiser Wilhelm, With Prophetic Eye, Foresees the Inevitable Coming of Triumphant Republics.

"My son will be the last of the emperors," Kaiser Wilhelm is said to have told the historian, Karl von Koon, recently. "All the world will be republican within 50 years. Germany will be the last of the empires. It is inevitable."

The Kaiser is credited with being a far-sighted politician as well as an able upholder of his prerogative as a sovereign. He sees the drift of the times as other crowned heads see it. Monarchy is passing, even in England. It has passed in France and Portugal; it has become merely nominal in other European countries. Even China has become a republic. Germany is conservative on the subject, no doubt because it has had excellent rulers. From an American point of view it seems likely that the last nation to change, as the Kaiser prophesies—to be even later than Russia.

Monarchism, like feudalism, has had a proper place in the evolution of civilization, but, like feudalism, it must go. There have been a few real kings and queens whose work for the world has been great, and the ideal of kingship, as Carlyle points it, inspires high sentiments and noble deeds. But this is an age in which kings and queens have little to do and in which education is so widely diffused as to make the real leaders recognizable as the need of them arises. The world progresses politically as it progresses materially, intellectually and morally.

How to Get Rich.

One of the richest men of a certain Indiana county is known as well by his penurious habits as by his bank account. A short time ago he invited an old friend to dine with him. Accepting the invitation, the friend was piloted to one of the cheapest "hotels" in the place and two dinners were ordered at 25 cents each. A second cup of coffee was ordered by the guest and when he finished it the pair, after the bill of 55 cents was paid, meandered out on the street. Noticing his host's downcast expression and silence, he asked what had come over him.

"Nothing," said the host. "But something must be wrong," said his friend. "Well," said Croesus, "I can't understand how my bill was 55 cents." "Oh," said the guest, "I had a second cup of coffee—but I'll pay for it." He at once took a nickel out of his pocket and Croesus accepted it.—Indianapolis News.

Found Use for Sawdust.

In the consideration of a change from steam to electric drive in a St. Paul (Minn.) saw and box mill, the one stumbling block was the matter of the disposition of the sawdust accumulated about the machinery. Under the old system this was made use of under the boilers, and thus it saved the expense of fuel and of being carried away, but the problem was eventually solved by the erection of a storage house where the sawdust was stored in the shape of bales and disposed of during the winter, when it demanded a higher price than could be secured in the summer. In winter the material is in demand for bedding in stables. The change from steam to electricity proved to be a desirable one from every standpoint after the matter of the disposal of the refuse was solved in this manner.

Tea Came to Europe in 1666.

Tea is native to Japan, China and Upper Assam. In the latter country it is found in a wild state. The plant has been carried to many countries and grows with almost as much vigor as in its native lands.

Tea was first introduced in Europe by the Dutch in 1666. The leaves of the coffee plant have long been used as a substitute for tea by the lower classes in Java and Sumatra. In appearance, taste and odor this substitute compares favorably with the Chinese production.

LEON FIGHT DETAILS

List of Americans Slain in Nicaraguan Battle.

Colonel Long's Forces in Full Control of City and Will Protect Its 40,000 Citizens.

Washington, Oct. 9.—Bulletins to the state department tell of the fight at Leon, in which three Americans were killed, three wounded and fifty Nicaraguans were killed; the number of the Nicaraguans wounded not being given.

The Americans killed were as follows, the names of their relatives in the United States being also given: John Bartels, private, enlisted at Chicago, Ill., December 27, 1911. His sister, Annie Puttomer, lives at Melrose Park, Cook county, Illinois.

Roy G. Morgan, May 18, 1889, enlisted at San Francisco. His mother, Mrs. S. M. Olson, lives at Los Angeles, Cal.

George O. Burgess, enlisted at Oak Park, Stillwater, Minn., December 7, 1908. His father, Ora Burgess, Oak Park, Stillwater, Minn.

The wounded are Frank Kittsmiller, private, enlisted at Spokane, Wash., May 13, 1912. His mother, Marguerite Kittsmiller, lives at Lewiston, Idaho.

Two others were wounded. Lampert, seaman from the Colorado, and Dalder, a marine trumpeter of Company D.

The department's account of the surrender of Leon says: "Lieutenant Colonel Long was authorized to grant amnesty to all the soldiers who would lay down their arms and go to their homes. The rebel leaders then agreed to turn over the city and Lieutenant Colonel Long entered Leon on the afternoon of October 6 with his marines and blue jackets. The resistance that they encountered came from an organized band of drunken rebels.

"All the Americans were struck while in action serving under the flag. Lieutenant Colonel Long's forces assumed complete control of the city of Leon and he will see that its nearly 40,000 inhabitants are protected. Quiet now reigns there."

BRUCE-BROWN'S AID DIES Expires as Jury Declares Bad Roadway Caused Double Auto Tragedy.

Milwaukee, Wis., Oct. 9.—Tony Scudellari, mechanic for the late David Bruce-Brown, died here from the injuries he received in the accident which killed the noted automobile racer a week ago. At almost the same hour a verdict was reached at the inquest on the body of the latter that the narrowness of the roadway on which he was "trying out" for the Vanderbilt cup race was the cause of his death, and that with a proper roadway the fatal accident would have been avoided.

FRANK D. BOSTOCK DEAD Famous Animal Trainer Dies in London, Eng.—Had Many Escapes.

London, Oct. 9.—Frank C. Bostock, the foremost of animal trainers, died here. Bostock, besides training animals with great success, managed many animal shows in various parts of the world. He was the first trainer to perform the feat of thrusting his head into a lion's mouth.

TO AILING WOMEN

A LITTLE SOUND ADVICE WILL HELP MANY A SUFFERER IN DIXON

No woman should consider herself healthy and well if the kidneys are weak. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen worse troubles may quickly follow. This is often the cause of bearing-down pains, lameness, backache, etc. Uric poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness, and rheumatic pains.

When suffering so, try Doan's Kidney Pills, remedy that has proven effective in thousands of such cases. Let a Dixon woman tell of her experience.

Mrs. F. E. Self, 1009 Highland Ave., Dixon, Ill., says: "The use of Doan's Kidney Pills has been very beneficial to me. I am glad to recommend this remedy for kidney trouble and backache."

The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask DISTINCTLY for DOAN'S KIDNEY PILLS, the same backed by home testimony, 50c, all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

G. O. P. PAPERS FOUND

RECORD OF CONTRIBUTIONS IN 1904 ARE IN CHICAGO.

Former Secretary of Republican National Committee Says Copies of Bliss Papers Are in Warehouse.

Tacoma, Wash., Oct. 9.—Complete duplicate lists of all contributions received by the Republican national committee during the campaign of 1904 and copies of reports made to Cornelius I. Bliss, national treasurer, records which the Clapp senate campaign contributions committee is very anxious to secure, are locked away in a packing case in a Chicago warehouse.

This information was given out by Elmer Dover, formerly secretary of the national Republican committee, in reply to an inquiry made to him by United States Senator Wesley Jones of Washington, a member of the subcommittee now engaged in investigating campaign contributions.

Dover said he would go before the committee at Washington if it was desired and would produce the papers. In addition to the list of the 1904 campaign contributors and the sums they gave, Dover says the packing case also contains partial lists of contributors to Republican campaign funds for approximately ten years back.

Dover was interrogated here by Senator Jones, who was acting on a telegraphic request of Senator Clapp.

Dover declared that while secretary of the national committee Treasurer Bliss turned over to him lists of the contributors and that he had copies made. The documents in storage is information, it is believed, that would shed light on many disputed questions concerning contributions to the 1904 campaign. Dover stated that he had probably contributed \$15,000 to the campaign fund of 1904 for the estate of Mark Hanna. This was the largest single contribution he had personal knowledge of.

LOCATE G.O.P. 1904 FUND LIST

President Taft's Campaign Manager
Says Renomination Cost Chief
Executive \$290,000, of Which
His Brothers Gave Half.

Washington, Oct. 9.—Congressman
McKinley of Illinois, manager of
President Taft's candidacy for the
renomination, testified before the sen-
ate committee that he spent approxi-
mately \$290,000 in the pre-convention
campaign.

Henry W. and Charles P. Taft,
brothers of the president, gave about
\$150,000 of this, he said. John Hays
Hammond, E. T. Stotesbury and An-
drew Carnegie gave \$25,000 each.

Ormsby McHarg testified he spent
between \$25,000 and \$30,000 for Roose-
velt in the southern states before the
convention.

Another chapter was added to the
disputed story of the so-called Harrim-
an \$240,000 contribution of 1904,
when Wayne MacVeagh of Philadel-
phia, former attorney general, told
the committee of a telephone conver-
sation H. McK. Twombly had with
the late E. H. Harriman in 1904.

Called on Twombly.

"I remember calling on Mr. Twom-
bly in the latter part of October,
1904," said Mr. MacVeagh. "While
we were conversing he was called to
the telephone by his clerk. His office
is in the same building as Mr. Mor-
gan's, but in the upper stories.

"When Mr. Twombly returned he
told me he had been talking to E. H.
Harriman, that Mr. Harriman had
been called to Washington by Colonel
Roosevelt and had found the president
anxious for the raising of an addi-
tional fund for the campaign; that it
had resulted in Mr. Harriman agreeing to
raise and give to Mr. Bliss \$240,000.

"Mr. Twombly said that Mr. Harri-
man had called him up and said he
expected him to give \$50,000.

Records of Fund in Chicago.

Tacoma, Wash., Oct. 9.—Copies of
campaign contributions, lists of the
Republican committee, including the
list of 1904, are stored in Chicago and
will be produced before the Clapp
committee in Washington, according
to Elmer Dover of this city, secretary
of the committee for four campaigns.
Mr. Dover, now president of the Tac-
oma Gas company, was examined
here by Senator Wesley L. Jones of
the Clapp committee.

Dover testified that the 1904 list
was given him by National Chairman
Cornelius N. Bliss to copy. The origi-
nal was returned to Mr. Bliss, he
said, but a copy of the list, with thou-
sands of other copies, covering four
campaigns, are stored in a Chicago
warehouse. Dover told Senator Jones
he would produce the 1904 first copy
if the senatorial committee so desired.

Dover testified he recalled one item
on the list, a contribution of \$15,000
by Dan R. Hanna. He said Mr. Hanna
asked him last January to join the
movement for the nomination of Col-
onel Roosevelt.

Dover denied that he had been of-
fered \$50,000 by George W. Perkins to
take charge of the Roosevelt pre-con-
vention campaign. He also denied
that he had been offered a cabinet po-
sition in case of Colonel Roosevelt's
election.

New York, Oct. 9.—William Hay-
ward, recent secretary of the Repub-
lican national committee, declared
that he believed Elmer Dover, his
predecessor, was mistaken in the be-
lief that copies of campaign contribu-
tions are in storage in Chicago.
